**8.The class work takes place as per schedule**

**Feedback Analysis & Action Taken / 2020 - 2021**

The questionnaire was sent through the online platform, Google Forms. The link was served to the staff and the responses were collected. All the respondents answered all the questions. The graphical representation was prepared on the basis of the options chosen by the respondents.

Criterion	Analysis	Action Taken
The currency and the relevancy of the Programme offered are appreciable.	A few teachers feel that still more relevant topics must be included in the syllabus.	The teachers expect an inclusive syllabus. So, along with the courses in the curriculum new and related areas were covered by conducting co-curricular activities.
The Board of Studies and the	A few respondents feel that the syllabus content	In the next Board of Studies, more teachers will

Academic Council take much care to ensure the quality of the Programme.	designed by the University can be still more enriched and suitable to the learners of the college.	come out their views.
Employability is given weightage in curriculum design and development.	The faculty wishes to have more number of courses on Employability.	Suggestion for introducing more innovative courses will be given by the teachers of the institution in the Board of Studies meeting, conducted by the Mother Teresa Women's University.
I am given enough freedom to contribute my ideas on curriculum design and development.	Almost all the teachers are satisfied with the academic freedom given to them to contribute their suggestions in the Board of Studies.	No alterations needed.
The OBE system followed by the college is effective.	The faculty find the OBE system to be challenging and interesting.	The faculty are able to grasp the true essence of OBE system and they are in an attempt to utilize it fully for the welfare of the students.
The curriculum has been updated from time to time.	The curriculum is updated once in three years by the university. So, some of the respondents feel the lack of the yearly upgradation.	If yearly revision of the syllabus is done, it may give place for newness of the curriculum.
Student-centered learning resources are available in the college.	Most of the faculty are satisfied with the student-centered learning resources available in the college.	The subscription to e-resources has been revived and made available to the students.

The class work takes place as per schedule.	There is a common notion that that the time schedule followed by the college is good.	No alterations needed.
When a student completes a Programme in this institution, I could feel the sea-changes in her as a full-fledged graduate.	A less number of faculty feel still some more attributes have to be achieved by the students.	The teachers are assigned the work of finding out the attributes of the students to be strengthened still more and efforts are taken to improve them.
I should be really fortunate to be a teacher of this institution.	Majority of the teachers are satisfied with the workplace.	No alterations needed.
